what type of program do you want?

02

PRE-COMPETITIVE (IN-HOUSE SHOWCASES ONLY)

Our pre-competitive stream is a recreational program for athletes aged 3-12 and for families who want to try out our sport, have additional commitments to other activities, or are wanting to keep expenses down. These teams run once per week on Saturday's in a non-competitive environment. They offer athletes the opportunity to perform at showcases while learning about our sport. Athletes learn all aspects of cheerleading and will learn up to a full routine depending on age ranges.

There is no competition, uniform, or travel expense for this stream. You can choose to pay everything at registration, or set up a monthly installment option with a \$150 initial payment. **If you would like to join pre-competitive, please register [HERE](#).**

COMPETITIVE (SASKATCHEWAN/ALBERTA COMPETITIONS)

Our competitive stream is intended for new and returning athletes born in 2022 or earlier who are interested in committing to two or three practices per week in a more competitive environment. These teams require a higher level of commitment and have competitions and travel opportunities within Saskatchewan and Alberta.

PLACEMENTS/TRYOUTS

ABILITIES TEAM

We are considering having a demo only abilities team this upcoming season. Please contact us if you have athletes who may be interested.

Adaptive Abilities may have physical, neurological and/or intellectual disabilities. The team we are exploring would be unified meaning there would be assistant/helper coaches and athletes on the floor.

IMPORTANT: all of our communication will be sent through our online platform at www.prairiefirecheerleading.ca. Please ensure your contact information is up to date, and if you ever change your email address or want more than one email address to get news, updates, and important information from us ensure that you update your account using the account details tab. If you opt out of our emails you may miss important information about competitions, classes, and registration.

OUR TEAMS

03

What are we offering this year?

Our teams are split by age, level, experience, and amount of practice commitment. Age divisions are determined by the International All Star Federation (IASF) and Cheer Canada (CC). Ages in our sport are calculated based on birth year. An athlete is age eligible if they are the given age for that category at any time between January 1, 2027 and December 31, 2027.

Note: We roster our teams using the IASF/CC division list but we build teams based on ages that are best for teams and athletes. As a general rule our U6 and U8 athletes stay in their age-appropriate divisions until they are required by birth year to move up. Please follow the guidelines below for the appropriate team options for your athlete.

TEAM PLACEMENTS

Athletes will have the opportunity to meet the staff, have some fun, and learn and show off their skills working with coaches on stunting, jumping, and tumbling. The team placement process enables us to build teams with like-minded athletes. This allows everyone to have success with the skills and abilities they bring to their team. After team placements are completed, you will receive an email with your team information including registration directions. You will have the team information on Friday, August 21st, 2026 at 5pm. Everyone is placed on a team, so please make sure your contact info is correct and check your junk folder if you do not see anything from us.

ROSTERING: Please remember that every year your position will depend on each team and who is on it; age, height, reach, and experience are all factors. If you were in one position last year, it could change this year, remember that this makes you a diverse and valuable asset to all teams.

ATTENDANCE POLICY OVERVIEW*

- A Vacation/Excused absence form is available for the upcoming season. Please complete by September 15, 2026.

- Any athlete missing practices between a competition may be removed from the next competition.

REQUIREMENTS/LEVEL-APPROPRIATE SKILLS

TUMBLING

Tumbling is not required for any team, but it is a consideration. Most tumbling teams have some athletes who do not tumble but that said:

1. To meet scoresheet expectations, we set a goal to have a minimum of 75% level-appropriate tumblers on any team.
2. Execution of any tumbling skill is one of the most important considerations. Any skill should be executed with excellence multiple times when being assessed.
3. When considering if you are an "at level" tumbler, we give preference to anyone who can complete **all** level and level advanced skills in any given level.

POSITION PREFERENCE NOTE

In anyone's cheerleading career athletes should expect to change positions at some point. That may mean transitioning from a top to a backspot, base, etc. and vice-versa. Any season we roster based on the needs of the team, athletes' previous positions, height, reach, vertical, and more. We understand that many athletes train for a specific position for many years. We like to focus on versatility for any athlete always. When looking at teams, a level 1 team needs more tops in the air with less bases (1 top with 2 bases); by the time we reach our open teams we have 1 top with 4-5 bases. It is therefore likely that eventually throughout your time cheerleading becoming a base or back spot (and vice-versa) is a likely possibility. We encourage you to keep an open mind and be willing to try something new!

FLYER/TOP EXPECTATIONS

To be a flyer, there are extra expectations required outside of practice that will be monitored throughout the season. All flyers, and anyone aspiring to be a flyer, should follow the documents in the strength & conditioning as well as balance & body positions documents that can be found [here](#). Please submit weekly videos in the "video submissions" folder by age range, and label the video with your name and date submitted. (first_last_month_date)
